The Spring Business—Shipbuilding—Manitowoc going ahead.

MANITOOWOC, COLONIAL PROPS OF THE SENTINEL.

Madison, March 25.

Meats. Editors:

The icy chain of the old F^r has been broken. Our winter King has left the harbor is free from ice; already the traders are coming and going, the bustle of the Spring business has commenced; and we expect shortly to realize the truth of the oft repeated prophecy "it will all be right, when the logs come down." Much as has been said in relation to the increasing prosperity of Manitowoc county, it has had but little effect in conveying any adequate idea of its real advancement. In the village of Manitowoc particularly, the truth of this statement is self evident, while Two Rivers is but a little ways behind in actual prosperity. As I write this, the noise of the hammer and saw is heard in all directions; stores and dwelling houses are springing up on every side, and all is bustle and confusion. The splendid new clipper schooner which is being built for Messrs. Platt & Son, by Bates & Son, is nearly ready for launching and is universally considered a perfect model of symmetrical beauty, reflecting credit upon Mr. Wm. Bates, whose skill in modeling and constructing is conceded to be second to none, and whose knowledge of his art has been acquired by a long course of severe study, and by experimenting upon all the late improvements in this important branch of science. It is expected that this vessel will be the pride of the West in everything but the name. She will be furnished with a scale of displacement which is something new in the West. The vessel building for Messrs. Jones & Co., by Messrs. Rand & Sons will be launched some time in April. She has been built for the lumber trade and with reference to practical use, rather than for beauty of proportions, or for speed, and will store more lumber in proportion to her size than anything now afloat.

The new vessel building at Two Rivers for Aldrich, Smith & Co., by Jas. Harbridge is nearly finished, but I have not seen her, so cannot speak of her merits from actual knowledge, but do not consider her not creditable to her.

The new saw mill of Messrs. Jones & Co. is finished, and authorizes the emptying into it of all the junks of the state. I do not know who drew the bill; but it is not thing at all what we want is an institution for the reformation of juvenile delinquents.

The mutilated railroad bill was reported back this morning, restored to its integrity.

The select committee on the Rock River Canal Co. bill reported it back with amendments; to which amendments being adopted, say they, there is no objection to the passage of the bill.

One of the amendments appends S. O. PAINE of Grant Co. Commissioner in place of CASASUS COKE; and another waives a disclaimer of any

intention to acknowledge any indebtedness of the state to the Company. Even with these and other amendments, however, were made at the last minute, the bill is very likely to pass.

The following long list of bills passed the Assembly during the morning session:

Relative duties of State Prison Com' (concerning extra labor of prisoners).

Charter of Fox River Valley Rail Road.

Appropriating \$25 to each of the State Prison Com'.

Authorizing vote on removal of Waupaca County seat.

Relative to execution for damages in Supreme Court (any person may sue for damages in Supreme Court).

Charter of St. Louis Falls & Norwicht Rail road Co.

Charter of Baltic Mining Co.

Charter of Lake Superior.

Charter of Oshkosh Young Men's Association.

Charter of Remire Mining Co.

Authorizing town to aid P. Washington & Co. in their plank road Co.

Charter of St. Louis Falls & Norwicht Rail road Co.

Charter of Milwaukee (filling 1st ward lay-out).

Also appropriations as follows:

P. T. Hayes, \$25.—J. Hayes, \$25.

W. L. Uley, \$25.—A. Whittemore, \$24.80.

D. H. Hobart, \$10.—Schoellier & Waud, \$10.

State St., \$10.—B. C. St. Vrain, \$10.

B. K. Miller, \$45.00.—E. J. Blair, \$20.53; Strong & Russell, \$65.07.

One appropriation bill, to J. Bullen, was laid aside for debate; and two—A. V. Fryer and N. Corrall, were rejected.

Sixty-two, I believe, the highest vote on any of these appropriation bills.

The Assembly went into committee of the whole and disposed of 18 bills. Several were laid aside as pending debates, among them being the House Bill, the Ensign Agency Bill, and the memorial for a Land Grant for a State Lunatic Asylum. Land Grants are in bad odor, about these days.

In the afternoon, the following bills passed:

Concerning the crime of larceny.

Relating to county offices in Outagamie Co.

Mr. Hull introduced a bill "repealing section 21 of the Mississippi and St. Croix Valley Railroad Co." stating that this bill had been tampered with in the same manner as the others, the section struck out by the Assembly appearing in the act as signed. The rules were suspended, and the bill passed through in double quick time. Safe business.

The Assembly went into committee for an hour or more on the general file, and made progress—a portion of the time was occupied with a bill providing for the taxation of railroads, planks roads, and telegraph companies. After some discussion of amendments, in which sundry members exhibited about as much obduracy as could be conceived of, in their attempts to hold down the railroad companies with taxes, as if they were a curse instead of a benefit, to the state, the bill was finally reported at \$1 per mile to New York, and proceeded to the Senate.

The London Daily News says, without date, that the Czar had sent another proposition to Vienna which the Representatives of four powers found reasonable and rejected.

Steamer with France and England ultimatum to the Czar left for St. Petersburg. France and Austria have not signed this ultimatum. Prussian and Austrian authorities still remain neutral.

First Division of 14 British ships, under Admiral Sir Nares, sailed from Portsmouth today, 11th, for the Baltic. Reported that 3,000 British troops go to the Baltic, for land service. 7th regiment embarked at Liverpool on the 11th, for Turkey.
